Hi Mike,

Attached is a draft community update for the CFAC and updated webpage content entry form for your review. Let me know if you have any edits/feedback or questions.

Community Update: I plan to use the community update as the means to notify our local email distribution list next week about the final NPL listing. This notification will be in addition to the media and congressional notification that will be issued by Region and your courtesy calls.

Webpage: From what I understand the webpage will not be updated until Wed Sep 7 at the earliest due to an upgrade to the system. In any case, we will likely have to make several small changes over the next week or so as documents and links become available and we schedule our public meeting.

Here is an overview of the changes I made to the webpage content entry form:

Topics in focus

Added: "On September 8, 2016, EPA added the CFAC site to the National Priorities List. The final decision was made after carefully considering all comments received during the public comment period for the proposal. Responses to comments are available to the public."

- Later we can add links to the final listing document, comment responses FR document.

Moved the language about the AOC to the section: What is the current site status?

EPA's involvement at this site

Added: " After considering all public comments on the proposal, EPA placed the CFAC site on the National Priority List September 8, 2016." Last sentence

What is the current site status?

Added: "The site was added to the NPL September 8, 2015" first sentence

- Later we can link to final listing documents

Added content removed from Topics in focus about AOC. Replaces 2nd paragraph

Stay updated – News

Removed the 3 links to recent news stories

- later we can add links to our Region 8 news release page and to the FR notice when they are available.

Stay informed and involved

Added: "EPA distributes regular email updates, holds community meetings, and organizes other public events to involve the public in the Superfund process. EPA staff are available to contact directly with any questions, concerns, or new information." First paragraph

Public participation opportunities

Added: "Oct 11, 2016: Columbia Falls Chamber of Commerce luncheon." With link to their calendar page.

- Later we can add detail about the public meeting when it is set up.
